

Workshops, Master Classes & Lectures

Purnama Sari offers workshops, master classes, lectures, and residencies that feature Balinese dance, theater or shadow puppetry. In their dance workshop, K-12 students learn basic stances, footwork, postures, eye movements, and choreography, while their theatre workshop teaches the students vocalization and acting technique used in Balinese dance theatre. The scope of the students' learning is decided according to their skill level and age, as well as length of the program. The three hour master dance class elaborates the basic dance techniques and provide background knowledge of the art form. The 1-5 day Balinese mask dance theatre residency could include the study of stock characters and stories behind Balinese masks and mask making. In all the Balinese dance workshops, master classes, and residencies, participants have a rare opportunity to try on authentic, museum quality Balinese dance masks.

Purnama Sari also offers lectures on Balinese dance and theatre, shedding light on culturally unique philosophy behind the art form.
